

# HOW AERMEC IS PLANNING FOR BREXIT

The UK is scheduled to leave the European Union at 11.00pm on 29th March 2019, unless the deadline is extended.

However, there is much uncertainty following the government's defeat of its proposed exit agreement. Like most businesses, Aermec UK is faced with a number of possible outcomes.

We have been proactive and reviewed many scenarios and want to reassure our supply chain and our customers that we are working hard to minimise the impact whatever happens.

## KEEP GOODS MOVING

All our products are manufactured in Italy and the Aermec SpA supply chain is across Europe. We have assessed the impact of currency fluctuations (as we do now) and possible border delays.

## MANUFACTURING

Our manufacturing and supply chain is based in Europe.

## BREXIT, HARD BREXIT OR NO DEAL?

Aermec has been proactive and substantially increased stock levels of spares to minimise any delays.

## HUMAN RESOURCES

We have invested in the right people.

# AERMEC & BREXIT

## TARIFFS

There is still uncertainty for all businesses in all markets, but Aermec is ready to put a strategy in place as more information becomes available.

## FINANCIAL PLANNING

We have strategies in place to ensure there are no delays in funding, spares or making VAT payments.

## ORDERS

Delivery times may increase. Most of the HVAC industry buys components from the EU. We are collaborating with our suppliers to ensure minimal disruption.

## CUSTOMERS

Our priority is our customers, many of whom are based in the UK. We aim to minimise disruption and any additional costs if there is a hard Brexit.

We value our customers and your business is important to us. If you have any enquires don't hesitate to contact Aermec by telephone **0203 008 5940**, email [uksales@aermec.co.uk](mailto:uksales@aermec.co.uk) or by visiting our website [www.aermec.co.uk](http://www.aermec.co.uk) and using the online enquiry form.
